BEAUTY HINTS FOR YOUR HAIR

How to Prevent It From Growing Gray.

There is no occasion for you to look unattractive or prematurely old because of gray, streaked with gray, white or faded hair. Don't let this condition with its look of age rob you of your youthful beauty and the wonderful opportunities which life offers. No matter how gray, prematurely gray, lusterless or faded your hair might be, "La Creole" Hair Dressing will revive the color glands of nature—promote a healthy condition of the hair and scalp—and cause all of your gray or faded hair to become evenly dark, soft, lustrous and beautiful. This preparation is not a dye, but an elegant toilet requisite which is easily applied by simply combing or brushing through the hair.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly com-pounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy

and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients for about 50 cents. Everybody uses this preparation now, be-cause no one can possibly tell that you darkened your hair, as it does you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful tollet requisite. It is not intended for the cure, mitigation or prevention of cure, mitigation or prevention of disease.—(Adv.)
